1			Per JDS's "Citation and Reference Style Guides" authors are expected to adhere to the guidelines of APA Style (American Psychological Association). Text: Citations in the text should follow the referencing style used by the American Psychological Association. You are referred to the Publication Manual of the American Psychological Association, Sixth (6th) Edition, ISBN 978-1-4338-0561-5. Details concerning this referencing style can also be found at http://linguistics.byu.edu/faculty/henrichsen/apa/apa01.html . References List: references should be arranged first alphabetically and then further sorted chronologically if necessary. More than one reference from the same author(s) in the same year must be identified by the letters 'a', 'b', 'c', etc., placed after the year of publication.	
2			Make sure you have both the issue number and the page notation in the reference.

1			- The purpose of the study should be clearly explained in the end of Introduction Chapter. - It is not common to include tables in the introduction, so tables need to be moved and explained. (p.2) - Add description of the population of samples.	
2			- In deriving the research model, flexible linkage and explanation based on existing research is required (p. 7).	
3			- In this paper, it is recommended that the explanation of the empirical results be made by comparing the differences and similarities based on the existing research.
