FOREWORD FROM RECTOR UNIVERSITAS BUDI LUHUR

Distinguished Guests and Participants, Excellencies,
Ladies and Gentlemen

On behalf of the ICCD 2022 conference organizers, I would like to express my gratitude to all of you, who have already joined from several countries, thank your cooperation which has enabled us to conduct a highly fruitful conference.

ICCD is a scientific forum that brings academics together to share their experiences on community services. Even though conferences on community services are infrequently convened, they have promising futures. I expected every participant would make contributions to this related field and promote mutual understanding among the participants through this event. This event is an actual endeavor to expand community services to go to the global level. I am optimistic that this year's ICCD 2022 Conference themed "Strengthening The Nation's Competitiveness: The Role of Technological Innovation and Entrepreneurship." will be the forerunner of the international journal on community services and internationally accepted of getting recognition side by side with the journal of research.

It is a great opportunity for our campus, Universitas Budi Luhur, to learn about the excellent community services done by various countries regarding the conference topic. We also learned new ideas from each other, which we could adopt to further improve our work in this needed area. We hope this collaboration will continue to motivate lecturers to carry on more quality community services impacts on national resilience. In particular, lecturers become more competitive preparing the distribution of community services to win either government or private institutions grants.

I also greatly appreciate the support from the ICCD 2022 Organizing Committee, the Program Chairs, and the Program Committee for their extremely hard work on the details of important aspects of the conference programs and also to the speakers, Dr. Sonali Agarwal, Dr. Hasnah Haroon, Dr. Nurhayati Ali Assegaf, dan Dr. Mohamad Akram Hureri. Their already shared knowledge has made a pleasant experience.

Finally, on behalf of the Conference Committee, I would like to express our appreciation and welcome to all participants who attended the event despite your busy schedule and thank your institutions for sending excellent participants.
