4. [Monday, 2025-09-08] Task #1

 Attendance

 Task #1

Continue the code from the previous meeting so that:

- There are classes Square and Triangle, which are also derived from the Shape class.
- There is a calculateArea() function in each class that can calculate the area of each derived class according to the formula for each area.
- Create a Main class that contains the Circle, Square, and Triangle objects. When run, the program will output the

area of each object.

How to answer:

- Create a GitHub account
- Create a repository
- Git-push your answer
- Send the repository URL as your answer

Good luck!

5. [Saturday, 2025-09-13] Inheritance and Polymorphism

Online Meet at meet.google.com/uxj-kjwq-eiv

Material Files - Inheritance

511.4KB PDF document

Material File - Polymorphism

Attendance

Online Meeting Evidence

1.1MB Image (PNG)

Exercise 1

Continue the code at Inheritance slide, so it can have the complete and running application.

Capture the result an include it in the project

How to answer:

- Create a new repository
- Commit your code and your screenshot of the result
- Git-push your answer at your new repository
- Send the repository URL as your answer
